UNIVERSITY OF MISSOURI

Celebrating the Past, Building for the Future

VICE CHANCELLOR'S OFFICE

108 Whitten Hall Columbia, MO 65211

PHONE: (573) 882-7477 FAX: (573) 882-1955

January 5, 2017

Dear County Commissioners and Friends of MU Extension:

The past year was a busy one for University of Missouri Extension. As a long-time extension professional and newcomer to Missouri, I have found the support from people like you to be remarkable. Missouri is a special place with a promising future.

Through the efforts of faculty, staff and amazing volunteers, MU Extension connects millions of Missourians with knowledge they put into action in their daily lives. Using a range of learning experiences, we reach people of all ages and backgrounds, in every corner of the state.

In response to direct input received from local councils and the unique nature of each county, extension programs vary slightly across the state. This strength of local flexibility and public engagement enables county-based Mizzou faculty to provide local learning experiences that improve lives and community vitality. For example:

- MU Extension business specialists helped local Missouri businesses achieve sales increases of \$186 million while creating or retaining 7,766 jobs.
- Helping assure access to health care in local communities, MU Nursing Outreach made it possible for 2,094 nurses keep their skills up to date.
- Our 4-H youth development specialists and other extension team members worked with volunteers and community leaders to reach 269,000 youths ages 5 to 18 across the state.
- Anticipating the needs of Missouri's aging farm population, extension faculty developed workshops that target estate planning, succession and retirement planning specific to farmers.

These are just a few examples of how Mizzou's commitment to extension and engagement benefitted Missourians this past year.

In the interest of better serving Missourians, we are conducting a statewide needs assessment. It will include extensive input from local communities and stakeholders. It will result in stronger alignment between extension programs and local needs.

I encourage you to read the attached annual report from your county office to gain an understanding of how MU Extension has worked this past year to serve your community.

Your support of MU Extension and our efforts in your community is greatly appreciated. As always, I welcome your input on how the University of Missouri can better serve the people.

Sincerely,

Marshall Stewart, Ed.D.

Vice Chancellor for Extension

University of Missouri, Lincoln University, U.S. Department of Agriculture and Local Extension Councils Cooperating

January 9, 2017

Dear Andrew County Constituents,

This document contains information about our existence in the county and our ability to provide relevant, reliable and responsive information to the public. Our office is staffed with an office manager, one part-time extension associate and one full-time extension specialist. The work represented in this annual report may only be a partial listing of the total educational programming that goes on in the county. Therefore, we take pride in knowing that this is just a sample of the outstanding work generated within the county by extension personnel. From their efforts, citizens of the county learn to be effective with managing time, money and resources while achieving their goals. Workshop participants gain knowledge in health, nutrition, communication, family dynamics, agriculture, our environment and youth enrichment activities that will enhance their lifelong well-being as an individual and as a productive citizen in society.

Understanding that today's economy has placed burdens on the public through fewer jobs, fewer discretionary dollars and rising costs to maintain the lifestyle of recent times, University of Missouri Extension has helped the way for citizens to remain the primary focus of their intentions by delivering crucial information in programs that build jobs within the community, conserve energy in businesses and homes and create economic wealth through estate planning and financial savvy class exercises.

With this in mind, we hope that you enjoy reading of the wonderful opportunities presented this past year. A huge thank you goes out to the Andrew County Commission, Andrew County Extension Council and all the businesses and individuals that contributed to our programming efforts throughout the area.

Sincerely,

Janet Crowder

Sam Carneal

Andrew County Extension Council Duties

The Andrew County University of Missouri Extension Council serves as the governing body of the county extension program. The council has four purposes assigned by law:

- make recommendations and suggestions to the University concerning the extension program
- make recommendations to the University concerning the appointment or removal of extension personnel
- arrange for and administer the county's share of the cost of the extension services over which the council has jurisdiction, and
- receive, hold or sell real and personal property reasonably required for the extension program.

2093 – Youth Direct Contacts

14 – Adult Direct Contacts

436– Total Indirect Contacts (youth & adult)

In 2016, University of Missouri Extension (UME) Family Nutrition Education Programs (FNEP) provided nutrition education to lowincome youth & adult participants in Andrew County.

Nutrition Educators provide kid-friendly lessons that include taste-testing healthy foods and practicing skills that lead to good health.

Education for adults includes nutrition, food safety, physical activity, and food budgeting.

Nutrition Program Associate Sue Robison

What Action Did They Take?

Success story from NPA, Gina Ripley: One of my Co-workers was excited to tell me that she is friends with the mother of one of my 2nd grade students at John Glenn Elementary, Savannah School District. The mom reported that her daughter came home so excited about nutrition class and the food tasting we'd had that day. She offered to make Tortilla Roll-Ups for dinner that night because she knew they already had all of the ingredients on hand. This 2nd grade student introduced her family to a healthy and delicious low-cost meal.

Success story from NPA, Sue Robison: During a recent nutrition class at Minnie Cline Elementary, a student said, "I never eat breakfast", so I asked how they felt at that very moment, "tired and hungry" was the reply. That comment led to a good discussion about breakfast. I was able to share information about the importance of breakfast - how eating breakfast helps provide the nutrients needed for learning and growth. Breakfast can be any food, even last night's leftovers. This student thought a moment and said there were bananas at home or they could eat breakfast at school. It was rewarding to see the student begin to think of ways to add breakfast to their day – a healthy behavior change.

How Does This Make Andrew County and Missouri Better?

The Family Nutrition Program (FNP) brought \$8,582,289 in Federal funds to the state of Missouri. These funds were used to provide nutrition education to 951,652 food stamp recipients and food stamp eligible citizens of Missouri.

FNP recorded 2,543 total contacts in Andrew County.

Participants in FNP become more aware of nutrition, make healthier meal and snack choices, eat breakfast more often, are more willing to try new foods, increase their physical activity and in general make healthier food choices. Those who practice healthy eating and activity behaviors are more likely to enjoy a high quality of life as an adult and into old age. A healthy labor force is critical to attracting and keeping jobs in Missouri. In addition, this important programming effort serves to reduce healthcare costs over the participant's lifetime, saving taxpayers money in reduced public healthcare benefits and insurance premiums.

Beef and Forage Production Education

By maintaining or improving soil health and water quality through better distribution of nutrients on our forage and beef cattle operations, we ensure future generations will have safe and plentiful natural resources.
		productivity, maximizing nutrient utilization, while minimizing soil and nutrient losses and other negative impacts on the environment.		With over 80,000 head of beef cattle in the area a viable agriculture economy has a positive impact on our area and plays a key role in our local, regional, state, national and world economies.
450 plus Youth participants	In total approximately 700 hours were spent by area youths learning conservation, water cycles and good agricultural production practices.	Strategies area beef producers are using to optimize their operations while minimizing soil and nutrient losses and other negative impacts on the environment.	By having a better understanding of the research-based information and good production practices producers utilize on their operations, youths will be better able to understand why they as producers themselves need to be good stewards of their land and resources.	Well-informed youths are better prepared to make good management decisions based on research-based results. Youths are our future and provide great opportunities for our area.

Food Preservation

KATIE BUCHS, M.S.

NUTRITION AND HEALTH EDUCATION SPECIALIST
SERVING BUCHANAN, ANDREW, ATCHISON, HOLT, AND NODAWAY COUNTIES

Number of Learners	Topics	What Did They Learn?	What Action Did They Take?	How Does This Work Make Buchanan County and Missouri Better?
The class was on water bath canning with 18 participants. We created a tomato-based salsa and the class was funded through a grant awarded to The Sisters of St. Francis. The class was three hours long.	Food Safety Water Bath Canning General information on Steam Canning General information on Pressure Canning	Out of 8 participants that were willing to fill out a post survey, all 8 either checked agree (1) or strongly agree(7) on the question, "As a result of this session, I have a better knowledge of how to safely preserve food." The participants demonstrated that they learned a large amount on the safety behind water-bath canning. This was demonstrated in the post survey section where they wrote what the most important thing learned.	7 out of 8 surveys said they will use tested recipes from a reliable source. Participants mentioned they were going to go home and can, were interested in learning more about canning and were interested in future classes.	Food Preservation can help individuals safely preserve fresh fruits and vegetables. When food is preserved correctly, the food is less likely to spoil before consumption which saves the participant money. This can have an economic impact on the community and state.

Family Financial Education

MERIDITH BERRY VITA TAX PREPARATION

Number of Andrew County Participants	Total dollars returned from federal and Missouri refunds.	What Did They Learn?	What Action Did They Take?	How Does This Work Make Andrew County and Missouri Better?
39 participants representing 35 households	\$31,504 returned including \$15757 in earned income credit to Andrew County residents.	 Importance of retirement savings Savings Credit Other tax credits Lowering tax liabilities Consequences of bankruptcy 	An Andrew County couple had made \$300 too much to qualify for a couple of tax credits. They were encouraged to open an IRA before filing. Because they opened the account, they went from owing the federal government around \$300 to receiving over \$600 in refunds. The couple was empowered to start planning for their retirement.	In addition to the income and education, an average of \$90 per return was saved by having taxes prepared by University of Missouri Extension. Regionally, federal and state tax forms were filed for 274 households. In addition to Missouri tax returns, state returns for seven other states were prepared. Supporting extension saved low income families the cost of a tax preparer and brought money to the area in refunds, earned income credit, child tax credits, and other tax credit benefits.

Supporting the University of Missouri is an investment in the future of Missouri.

The university advances Missouri citizens and communities through its mission of teaching, research, public service, and economic development across our four campuses and University of Missouri Extension.
